

# Uploading a Large File to SecureVault

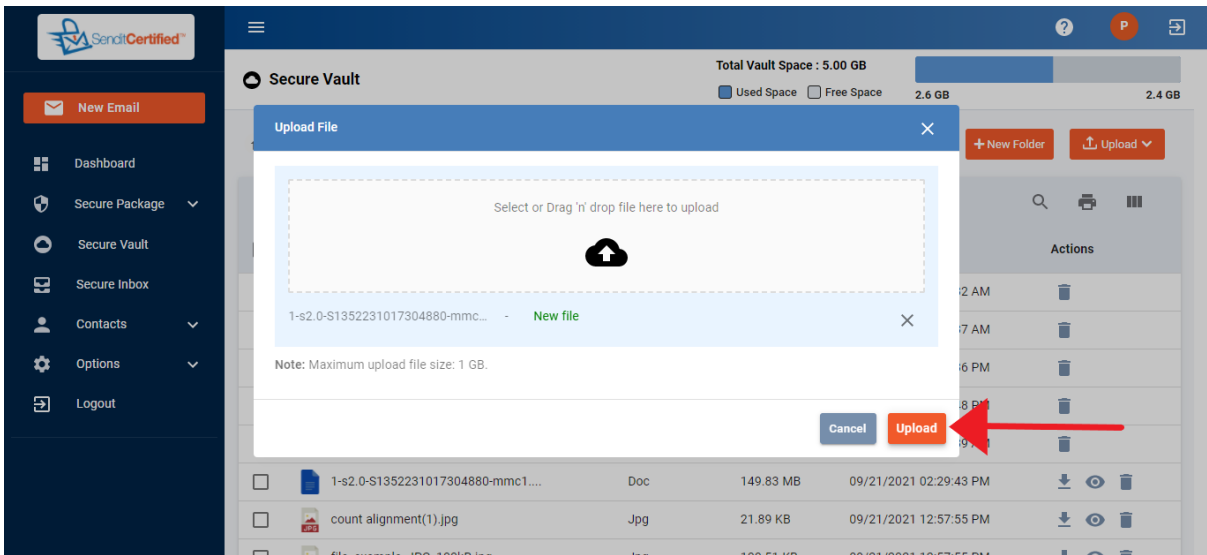

→ Log into your SenditCertified account and on the side menu click on the “**Secure Vault**” option.

→ To upload file first click on the “**Upload**” button and then click on the “**File Upload**” button.

→ Select large file from your local machine and if you notice the selected file size is 150mb and then click on the “**Open**” button.

→ After selecting, click on the “**Upload**” button.

The screenshot displays the 'Secure Vault' interface. At the top right, a green toast message reads 'Success! File uploaded successfully'. A red arrow points from this message to the file '1-s2.0-S1352231017304880-mmcl...' in the table below. The table lists various files with columns for File Name, File Type, File Size, Modified Date, and Actions.
