# How to Change Security Question

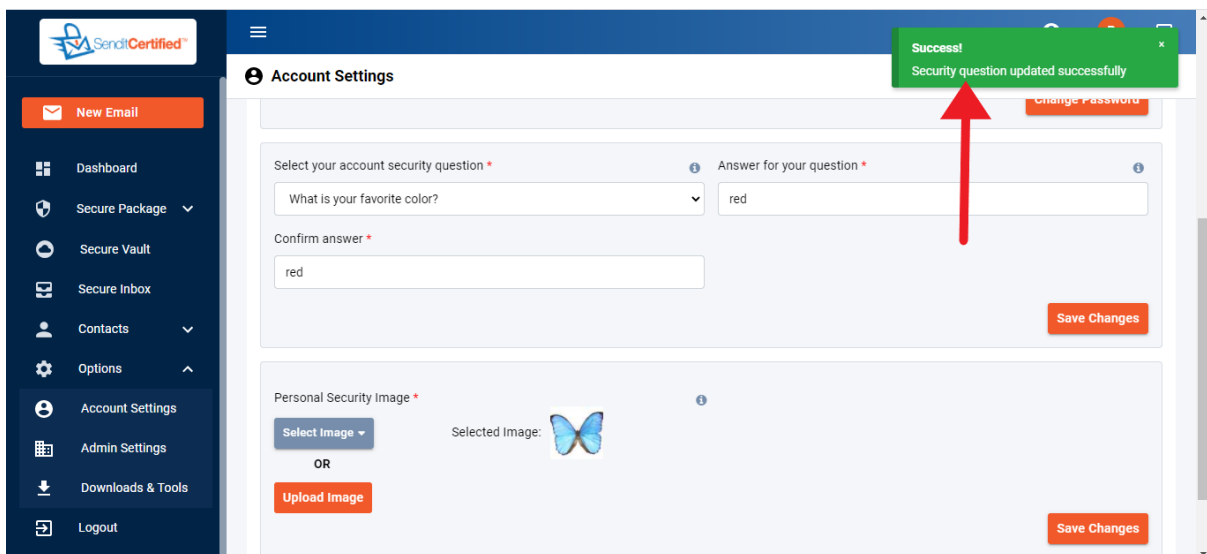

⟶ Log into your SenditCertified account and on the side menu click on the "**Options**" and select "**Account Settings**".

⟶ Now you are in the "**Account Settings**" screen and then Click on the "**Security Settings**" tab.

⟶ Enter your new Security Question and Security Answers then click on the "**Save Changes**" button.

⟶ A success toast message is shown as "**security question updated successfully**".
