

How to Install SenditCertified Desktop

https://www.privacydatasystems.net/application_download.aspx

The screenshot shows the SenditCertified web application interface. On the left is a dark blue sidebar with navigation options: New Email, Dashboard, Secure Package, Secure Vault, Secure Inbox, Contacts, Options, Account Settings, Admin Settings, Downloads & Tools, and Logout. The main content area is titled 'SenditCertified Downloads & Tools'. It contains a disclaimer, a section for 'Windows Based Tools (PC)', and a card for 'SenditCertified for Outlook'. The card includes the version '2010, 2013, 2016, 2019 and Office 365', the version 'Version: TLS 1.1 or greater | Published: 08/06/2021', and a description. A red arrow points to the 'Download' button on the right side of the card.

The following downloads and tools are NOT required for use of your SenditCertified account. They have been provided as additional resources for user account access and contact updating.

Before installing any SenditCertified Tools we recommend that the user verify that all Operating System Updates have been completed (ex. [Windows Update](#)) and that [JAVA](#) is updated on the PC. Additionally, Windows 10 users are required to have the Microsoft [.Net Framework 4.7.2 installed \(or higher\)](#).

Windows Based Tools (PC)

Click the "**Download Now**" button for SenditCertified Desktop.

The screenshot shows the SenditCertified web application interface. On the left is a dark blue sidebar with navigation options: New Email, Dashboard, Secure Package, Secure Vault, Secure Inbox, Contacts, Options, Account Settings, Admin Settings, Downloads & Tools, and Logout. A red arrow points to the 'Downloads & Tools' menu item. The main content area is titled 'SenditCertified Downloads & Tools' and contains a disclaimer: 'The following downloads and tools are NOT required for use of your SenditCertified account. They have been provided as additional resources for user account access and contact updating. Before installing any SenditCertified Tools we recommend that the user verify that all Operating System Updates have been completed (ex. Windows Update) and that JAVA is updated on the PC. Additionally, Windows 10 users are required to have the Microsoft .Net Framework 4.7.2 installed (or higher).' Below this is a section for 'Windows Based Tools (PC)' featuring 'SenditCertified for Outlook' with a 'Download' button. The tool details include: '2010, 2013, 2016, 2019 and Office 365', 'Version: TLS 1.1 or greater | Published: 08/06/2021', and 'Description: Send secure messages and large files from MS Outlook'. At the bottom of the page are links for Terms & Conditions, Patents, Privacy Policy, and DMCA Policy, along with a copyright notice for 2021. A taskbar at the bottom shows the application name 'SenditCertified.msi' and a 'Show all' button.

The screenshot shows the 'SenditCertified Desktop Setup' wizard window. The title bar reads 'SenditCertified Desktop Setup'. On the left is a graphic of a blue puzzle piece being placed into an open cardboard box. The main text reads: 'Welcome to the SenditCertified Desktop Setup Wizard'. Below this, it says: 'The Setup Wizard will install SenditCertified Desktop on your computer. Click "Next" to continue or "Cancel" to exit the Setup Wizard.' At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'. A red arrow points to the 'Next >' button.

Click "Next" to start the setup.

Click "Next" to confirm the folder location.

Click **"Install"** to begin the installation.

When prompted to allow the program to make changes to the computer, click **"Yes"**. Once the install

has completed, click **"Finish"** to close the installer and launch the application.

As SenditCertified Desktop launches it will complete an automatic update to ensure you have the most recent enhancements. This may take a few minutes to complete prior to the application opening.

You are now ready to login and use SenditCertified Desktop using the same credentials used to

access SenditCertified Online and SenditCertified for Outlook.
