

How to send a SecurePackage with audio

1) Locate the Audio file from your system.

2) After Uploading Click on the "Upload" button.

The screenshot displays the 'Secure Vault' interface. At the top right, a green notification box states 'Success! File uploaded successfully'. Below this, the 'Total Vault Space' is shown as 5.00 GB, with 38.2 MB used and 4.96 GB free. The main area is titled 'My Vault Files' and contains a table of files and folders. The table has columns for File Name, File Type, File Size, Modified Date, and Actions. The files listed include folders like 'Test', 'VPN', 'htmlPayments', and 'PDFPAYMENTS', as well as individual files such as 'Audio.mp3', 'Video.mp4', 'secure signature.zip', 'Signed_download (1).jpg', 'download (1).jpg', and 'hagesab653_at_timevod_com_down...'. Each file has a checkbox and a set of action icons (download, share, delete).

<input type="checkbox"/>	File Name	File Type	File Size	Modified Date	Actions
<input type="checkbox"/>	Test		6.17 KB	08/17/2021 01:50:08 PM Asia/Kolkata	
<input type="checkbox"/>	VPN		9.4 MB	08/05/2021 11:53:20 AM Asia/Kolkata	
<input type="checkbox"/>	htmlPayments		35.19 KB	08/05/2021 11:44:43 AM Asia/Kolkata	
<input type="checkbox"/>	PDFPAYMENTS		12.34 KB	08/05/2021 11:44:21 AM Asia/Kolkata
