# How to disable the "Would you like to use SenditCertified" prompt

SenditCertified for Outlook provides a default prompt after you click the "Send" button in MS Outlook. The prompt is designed to allow a final verification regarding the need for the communication to be sent securely via SenditCertified.
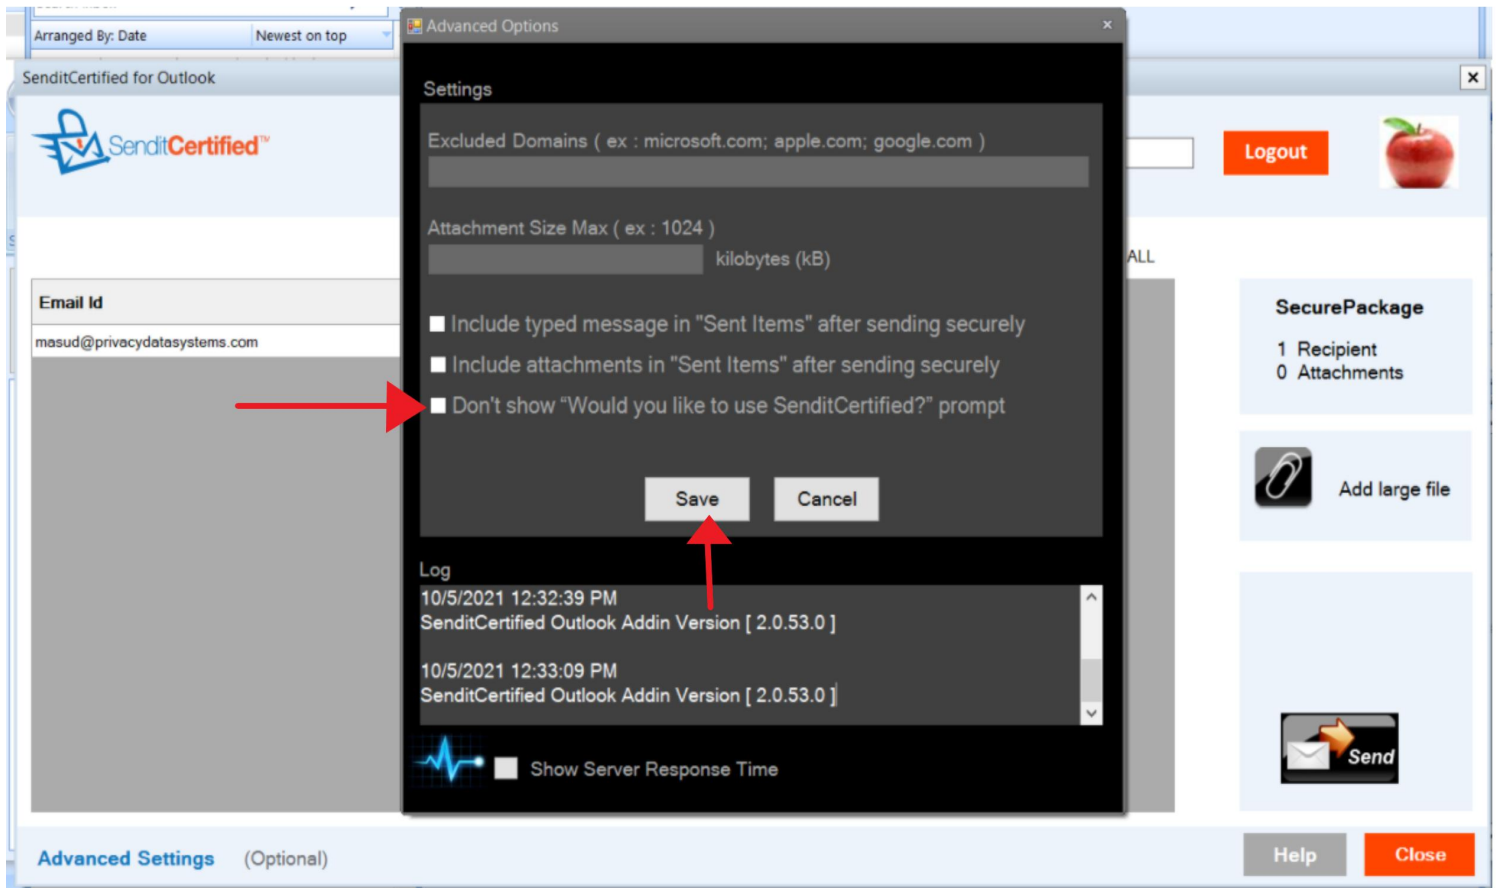

If you no longer wish to receive the prompt, click the **"Yes"** button (on the prompt) or go directly into your SenditCertified for Outlook window from the new email screen.

Once you are in SenditCertified for Outlook and logged in, click on "**Advanced Settings**".

Note: "**Advanced Settings**" are not available for Corporate users in SenditCertified for Outlook. Company ADMIN status is required to adjust SenditCertified for Outlook settings for Corporate accounts.

Check the **Disable "Would you like to use SenditCertified?" prompt** box and then click the "**Save**" button. The prompt should no longer be displayed when you click "Send" from the new email window.
